

FEATHERLITE
MEDALIST  SERIES™

☞ Everything. Your way. ☞

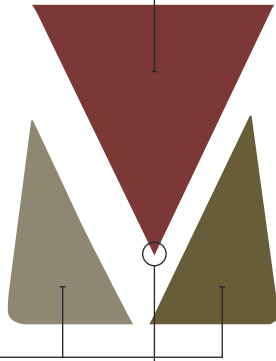

SAFE • SECURE • SMART

The MEDALIST “mark” tells a story. It is all about our customer.

The Customer.

The red triangle at the top of the logo symbolizes our customer. In other words, we place customers first.

Customers' different needs.

These two triangles of contrasting colors represent customers' differing needs. Featherlite strives to meet the needs of customers no matter what their preferences are.

The Process is complete.

...when the Featherlite customer gets the product and service that is right for them. That is the point.

Also, note that the three triangles echo the spaces created by the strokes of the letter “M.” This is just another way we want to say that we continually work to see that Featherlite fits nicely into your lifestyle, your priorities and your budget.

The Featherlite perfect fit for

Model 8545

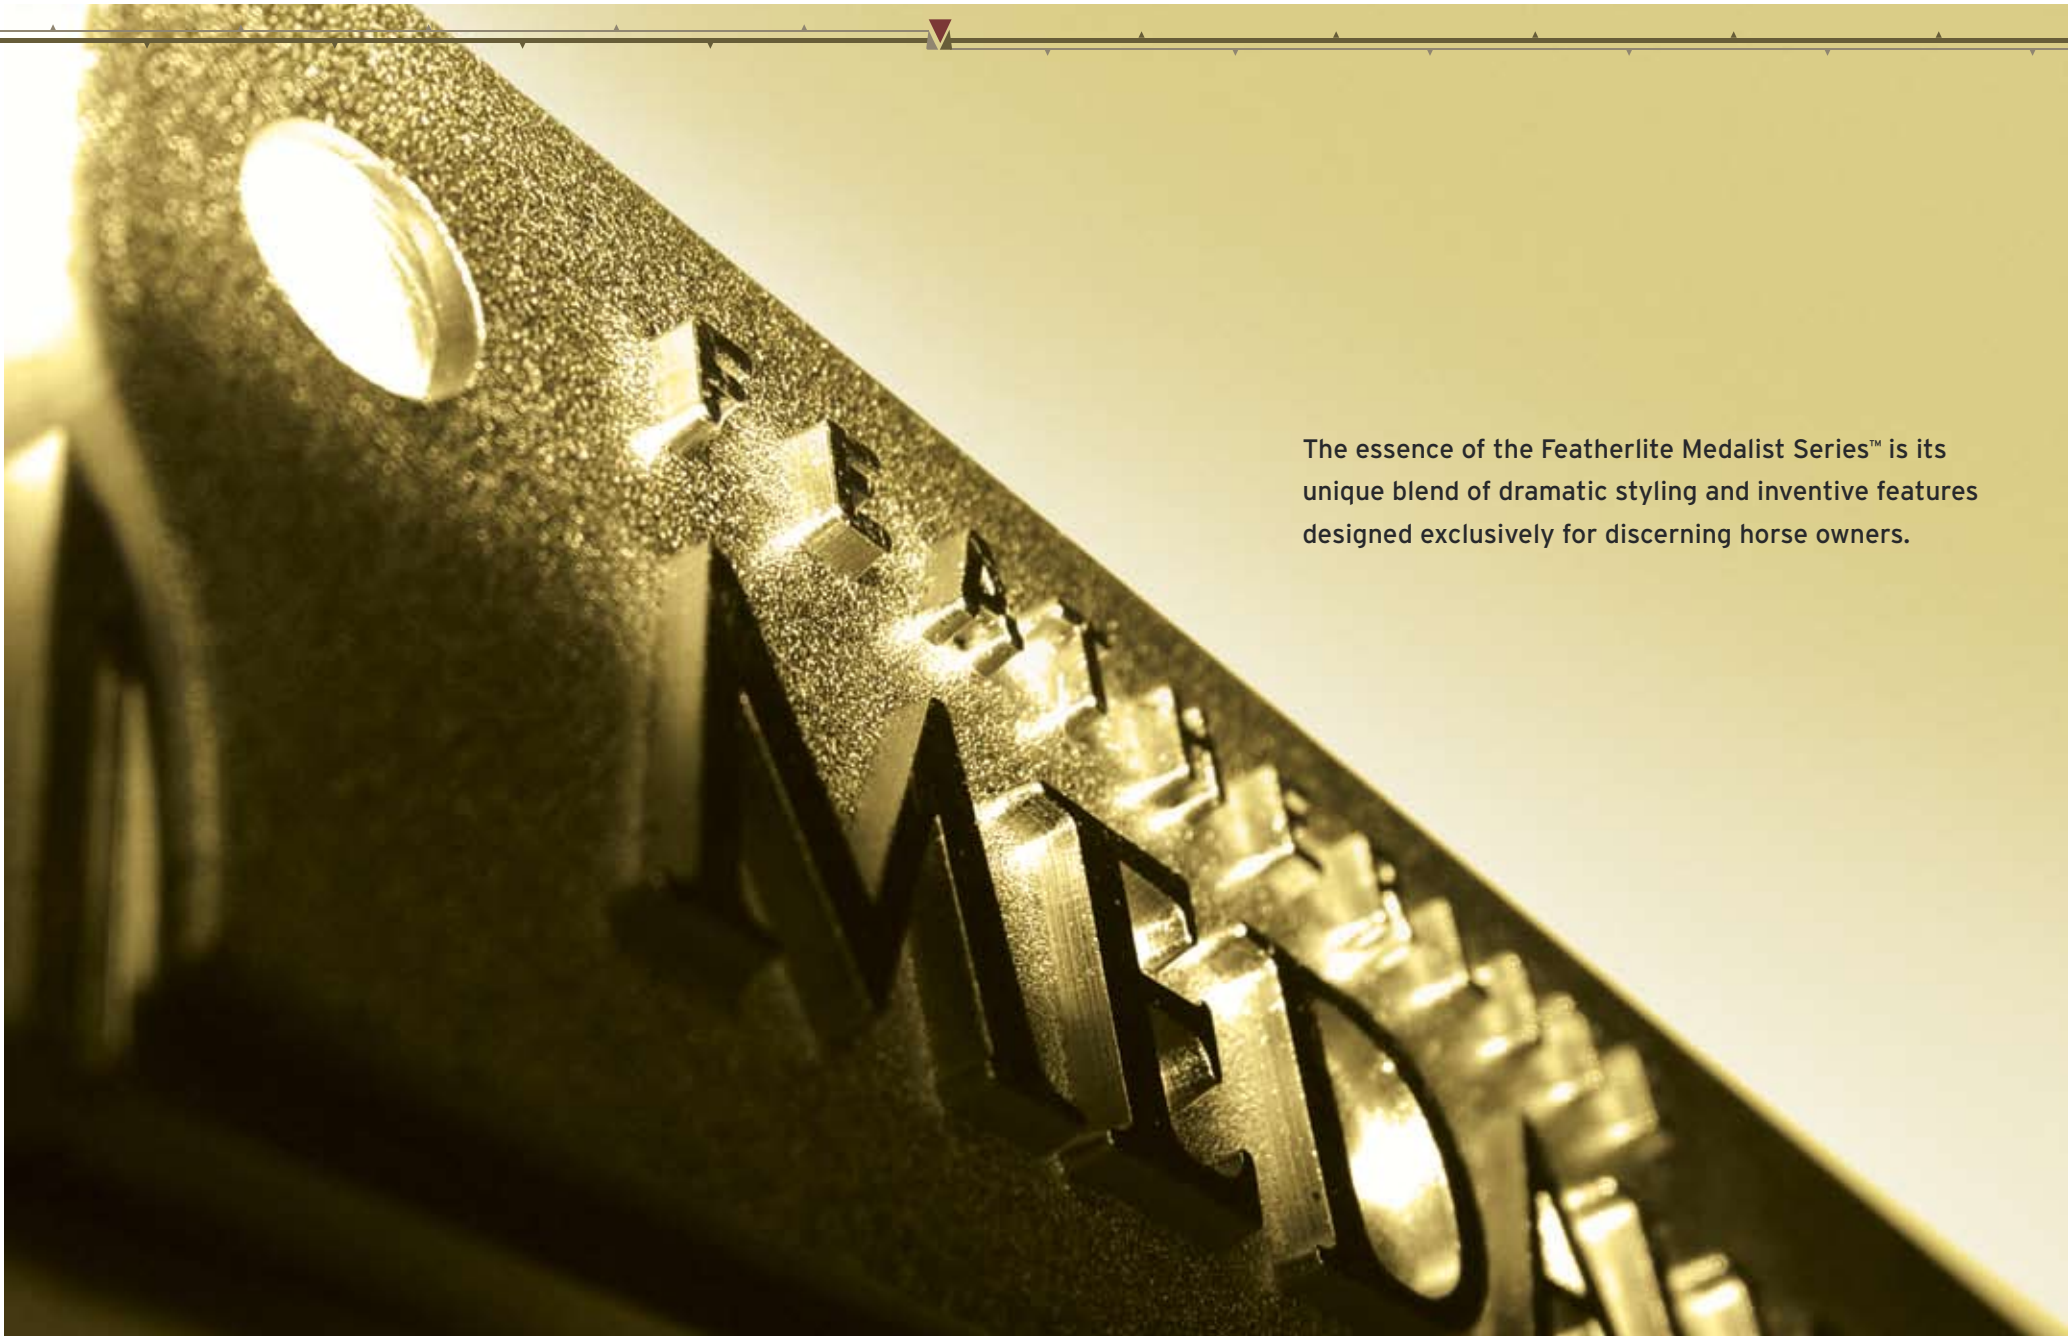

ite® Medalist Series™ is the
r today's horse owner.

Model 8546

The Featherlite Medalist Series™ is customized around you and your horses.

The essence of the Featherlite Medalist Series™ is its unique blend of dramatic styling and inventive features designed exclusively for discerning horse owners.

This new generation of custom horse trailers has redefined horse transportation.

Everything. Your way.

The Featherlite Medalist is available on over eighty-five models in bumper pull, gooseneck and living quarters platforms.

Select the package that is perfect for you

As a horse owner, your attention is on your horses. And the extensive range of innovative Featherlite Medalist Series™ features illustrates our focus on you. Select from extraordinary options, including an electric saddle rack.

All Medalist Series trailers come with the features listed in Packages #1 and #3. The horse trailer model you select will determine whether you receive Package #2A or #2B. The difference between #2A and #2B is in the trailer's side corrugations. Your Featherlite dealer will be able to help you select the trailer to best fit your needs and offer you full details. Everything. Your way.

- The list is endless!

Advanced Style, Incredible Amenities

Cast corner caps

Distinguished polished cast corner caps with the word 'Featherlite' engraved.

Corrugations

On 8500 models, aluminum corrugations will run the entire length of the trailer from the drop to the rear.

Radius rear frame

The stylish radius rear frame includes wraparound stop/turn lights for added visibility.

Internal rear door hardware

Internal rear door hardware streamlines and simplifies the exterior of the trailer's rear.

Chrome glass

Chrome glass windows and feed doors help reflect light and heat from the horse area and add to the distinctive appearance of the Medalist Series.

Aluminum feather

A three-dimensional cast aluminum feather on the front of the trailer signals the arrival of the industry's finest.

The image shows the interior of a horse trailer. The walls are a light blue color, and the ceiling is white with recessed LED strip lighting. The floor is dark. On the left, there are horse stalls with metal bars and dark, tufted stall pads. A doorway on the right leads to a dressing room with wooden cabinets and a mirror. The overall atmosphere is clean and modern.

Interior L.E.D. strip lighting

Interior L.E.D. strip lighting lines both sides of the horse area and dressing room as well as manger and rear tack if applicable. This is not your everyday horse area. It is lighter and more comfortable for loading and traveling.

Your horse's safety

A close-up photograph of a stall pad, showing its deep, tufted design and the metal frame it is attached to.

Larger stall pads

Featherlite "safety-guard" stall pads in the Medalist feature deep, extra cushioning for your horse's added comfort and security during travel.

Lined horse area

The horse area's ceiling is lined and insulated in .040 white aluminum. A lined white horse area is lighter, cleaner and more accommodating for horses.

Functionality

Exterior L.E.D. lights

Distinctive L.E.D. lights enhance visibility of your trailer during travel.

Heavy-duty doors

Extra durability is a given with Medalist Series heavy-duty camper doors.

Additional storage

Six inches is added to the nose length of gooseneck models for additional space and storage.

Side sheets

The trailer's side sheets are a sturdy .063 aluminum skin, available in black or white.

Options

Electric saddle rack

Super-slick electric saddle rack extends down and out from the trailer with the push of a button, making it easier to maneuver saddles.

S-drop enclosure

Brilliant stainless steel S-drop enclosure is available as an option on gooseneck models.

Aluminum wheels

The 06 series aluminum wheels, available as an option, add a splash of flash.

The list is endless!

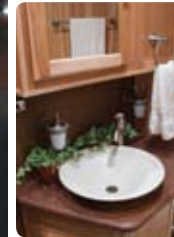

Feather Fact. Aluminum is the metal of choice for jet aircraft components. Why? Extreme durability with less weight. Like modern jets, Featherlite all-aluminum trailers are legendary for their rugged durability.

The living is easy

Traveling to competitive shows, events or travel rides is a pleasure in the luxury of living quarters available in many Featherlite Medalist Series models.

Choose from 8 distinct décor packages and three kinds of woods and a hickory option in select interiors (pictured). And you can get the exclusive 100X package* in Medalist Series models 8581 and up.

Our thanks...

*As a token of our appreciation, we will send you a gift of two leather jackets when you purchase a new Featherlite Medalist Series trailer.** Available in men's and women's styles and sizes.*

* See the Featherlite living quarters brochure or fthr.com. 100X package not pictured.

** Limited time offer. Some restrictions apply.
